Web site address:

<http://isprs-ss.wl.sggw.pl/>

On the 18th of July, 2009 as an integrated part of the ISPRS Summer School, the 1st ISPRS Student Consortium Conference will be organized. If you are interested, please visit the following web site address:

<http://isprssc-1conference.wl.sggw.pl/> and register yourself via registration form. It is possible to participate in the Conference independently from the Summer School.

General information

International Society for Photogrammetry and Remote Sensing (ISPRS)

ISPRS is a non-governmental organization devoted to the development of international cooperation for the advancement of photogrammetry and remote sensing and their applications. The Society operates without any discrimination on grounds of race, religion, nationality, or political philosophy. More information at: www.isprs.org

Student Consortium (ISPRS SC)

The ISPRS Student Consortium is an important connection between students and ISPRS professional activities, a way to get students familiar with and interested in ISPRS activities. It provides a platform for exchange of information and organises student-specific events either independently or within larger ISPRS events. The ISPRS SC acts within ISPRS WG VI/5 and presents the main student and researcher group, who share the same interest in photogrammetry, remote sensing and spatial information sciences. It was founded during the ISPRS Congress 2004 in Istanbul, under the ISPRS Commission VI "Education and Outreach". More information at: www.isprs-studentconsortium.org

Summer Schools

Since 2005, Summer Schools include educational and training activities with practical labs but naturally also social events and fun. First Summer School was organized in Istanbul (Turkey 2005), then in Ljubljana (Slovenia 2007) and Nanjing (China 2008). Usually more than 50 participants from about 20-30 countries around the World join these events. You can find more information on:

www.isprs-studentconsortium.org/index.php?id=16
We hope that you will find this event interesting and join our 4th Summer School in Poland 2009.
